

PanTheryx and Dr. Reddy's Announce an Agreement to Market PanTheryx's Proprietary Nutritional Intervention for Pediatric Infectious Diarrhea

Boulder, CO USA and Hyderabad, India – September 09, 2015 – [PanTheryx](#), Inc., a global medical nutrition company based in Boulder, Colorado, and [Dr. Reddy's Laboratories Ltd.](#) (NYSE: RDY), a leading global pharmaceutical company, announced today a multi-country supply and licensing agreement. The agreement grants Dr. Reddy's the exclusive right to market and distribute PanTheryx's breakthrough nutritional intervention, [DiaResQ](#)[®], for infectious diarrhea in India and Nepal and in process for Russia, Myanmar, Vietnam, Ukraine, Sri Lanka, Kazakhstan, Belarus, Jamaica, and select LATAM markets. Dr. Reddy's will market the product in India and Nepal under the "Reliqua[™]" brand.

DiaResQ[®] helps promote intestinal repair and boost natural immune defenses, resulting in the restoration of normal digestive function. The product was recently recognized in [Reimagining Global Health](#) as one of the 30 leading healthcare innovations with great promise to transform global health by 2030.

"The opportunity to work with Dr. Reddy's to broadly introduce DiaResQ[®] represents a significant milestone for our company," said Mark A. Braman, President and CEO of PanTheryx. "Dr. Reddy's is the recognized leader in the gastrointestinal market, and this agreement covers some of the largest and most promising markets throughout the world for PanTheryx and its products. This partnership further validates DiaResQ's[®] potential to improve the well-being and quality of life of millions of children and their families globally."

Dr. Reddy's Co-chairman and CEO, GV Prasad stated "This innovative product will address a significant unmet need in the area of diarrhea. By adding Reliqua to our existing portfolio of gastrointestinal brands, Dr. Reddy's can provide an important new tool for healthcare practitioners across the many markets we serve. Our agreement with PanTheryx is another step towards ensuring good health can be delivered to those who need it."

Infectious diarrhea is a major world health challenge. Globally, approximately 1.7 billion cases occur annually in children under five. Almost 760,000 of these children under five die every year as a result of this condition. Pediatric infectious diarrhea kills nearly as many children as HIV/AIDS, malaria and measles combined.
